The Form Time Quiz: Volume Three

A ten-question quiz played in small teams, with a printed answer sheet for each team. Six questions are on a theme and four are general knowledge: happy accidents for Year 7 to 9, jobs of the future for Year 10 and 11, and living on your own for sixth form. Teams swap sheets and mark each other's as the answers go up. It takes about fifteen minutes, and the only printing is one sheet per team.

How it works

Step	What happens	Slides
1	Put the form into teams of three or four and give each team the answer sheet for your key stage.	1
2	Read each question out as it goes up. Teams agree an answer, then tick a box or write it on their sheet.	2 to 13
3	Teams swap sheets with the team next to them. Show the answers one at a time and give the room a moment on each one.	14 to 24
4	Give the sheets back, and find out which teams got full marks.	25

Worth knowing

- Print one sheet per team for the key stage you teach. The sheets have boxes to tick and space to write in, but not the questions, so keep each question on the board until every team has answered.
- Every answer on the theme comes from a real study or a trusted source, named in small print at the bottom of the answer slide. If a student pushes back, the source is there to look up.
- The last two slides are blank, for questions of your own, and each answer sheet has two spare rows for them.
