

Team Challenges

Five team building challenges for form time. Teams of four or five rank ten things to survive at sea, build the tallest tower they can from ten sheets of paper, solve a puzzle when each person holds one or two of the clues, and line up in birthday order without speaking. The fifth challenge is done in pairs: one person describes a picture and the other draws it without seeing it. Run one at a time. Each takes fifteen to twenty minutes, and every challenge ends by asking what the best team did, so the form talks about how people worked together, not only about who won. Two of the five need a sheet printing.

Before you start. Lost at Sea is set on a life raft. If a student in your form has crossed the sea in a small boat, or lost somebody at sea, it may be too close to home, so run one of the other four instead.

Print these

Page	What it is
Page 2	The Lost at Sea sheet, two to a page. Cut it in half and give one to each student.
Page 3	The answers to Lost at Sea and Split Clues, for you.
Page 4	The Split Clues cards and working grid. One page per team.

The five challenges

Challenge	What you need	Slides
Lost at Sea	One sheet per student, from page 2	3 to 10
Paper Tower	Ten sheets of scrap paper per team, and a tape measure	11 to 16
Split Clues	One page per team from page 4, with the cards cut out	17 to 21
Describe and Draw	Paper and a pen for each pair	22 to 29
Silent Line-Up	Space for each team to stand in a line	30 to 34

Worth knowing

- Use the challenges in any order, one at a time. Hide the slides for the four you are not running that day, or start the show from the challenge you want.
- Every challenge ends on a slide asking what the best team, or the best pair, actually did. Leave a few minutes for it, because that discussion is where the form learns most.
- If a name in Split Clues belongs to somebody in your form, change it in pen on the cards and on slide 20. If anybody may not want to share their birthday, run only the first-name round of Silent Line-Up.

Make sure you come back for Volume Two. Follow @thepastoralguide to hear when it lands.

What is in the raft

Your sailing boat has sunk. Everyone is in the life raft, which has no roof, no engine and no oars. It is cold, land is days away, and nobody knows where you are. Number the ten things from 1, the most useful for getting home safely, to 10, the least useful.

NAME

TEAM

WHAT IS IN THE RAFT		ME	TEAM	THE ANSWER	MY GAP	TEAM GAP
A	A large plastic sheet					
B	A pack of cards					
C	Dry, warm clothes for everyone					
D	A bar of chocolate each					
E	A small mirror					
F	A map of the ocean					
G	Three distress flares					
H	A torch					
I	A fishing line and hooks					
J	Ten litres of drinking water					
ADD UP EACH GAP COLUMN. THE LOWER, THE BETTER.

The answers, for you

The same answers are on the slides. This page is for marking, or for settling an argument.

LOST AT SEA

	ITEM (ITS LETTER ON THE SHEET)	WHY IT SITS THERE
1	Dry, warm clothes for everyone (C)	Cold is the biggest danger at sea, so keeping warm comes first.
2	Three distress flares (G)	Fire one straight away. Keep the other two for when you can see a boat or a plane.
3	A small mirror (E)	On a sunny day its flash can be seen from miles away, and it never runs out.
4	Ten litres of drinking water (J)	People can last weeks without food, but only a few days without water.
5	A large plastic sheet (A)	It catches rainwater to drink, and keeps off the spray and the wind.
6	A torch (H)	For signalling at night. Save the battery until you can see or hear something.
7	A bar of chocolate each (D)	Food keeps spirits up, but only eat when there is water to drink, because digesting food uses water.
8	A fishing line and hooks (I)	Fish is food, but digesting it takes a lot of water, so it only helps once water is sorted.
9	A pack of cards (B)	Keeping busy and keeping everyone's spirits up really does help people survive.
10	A map of the ocean (F)	With no engine or oars you cannot go anywhere, so knowing where you are helps very little.

The order is based on the Seven Steps to Survival taught by the Alaska Marine Safety Education Association, which put shelter from the cold before signals, then water, then food, then keeping spirits up. The torch sits below the water because it only helps at night and its battery runs out. It is one sensible answer, not the only one, and a team that can argue for a different order has done the challenge properly.

SPLIT CLUES

Monday	Amira lost the PE bag.
Tuesday	Dev lost the scarf.
Wednesday	Chloe lost the water bottle.
Thursday	Ben lost the pencil case.

ONE WAY TO GET THERE

- Clue 2 puts Amira before Chloe, and clue 1 puts Chloe before Ben, so neither Chloe nor Ben lost anything on Monday. Clue 3 rules out Dev, so Amira lost something on Monday.
- Monday cannot be the scarf (clue 5), or the pencil case, because the water bottle went the day before it (clue 8). If it were the water bottle, the pencil case would be Tuesday and the PE bag would have nowhere to go before it (clue 7). So Amira lost the PE bag.
- That leaves Tuesday to Thursday for the scarf, the water bottle and the pencil case. The water bottle was not lost on Tuesday (clue 6), and the pencil case went the day after it (clue 8), so it is the scarf on Tuesday, the water bottle on Wednesday and the pencil case on Thursday.
- Chloe and Ben are on consecutive days (clue 1), and Ben did not lose the water bottle (clue 4), so Ben cannot be Wednesday. That makes it Dev on Tuesday, Chloe on Wednesday and Ben on Thursday.

The lost property box

One page per team. Cut out the eight clue cards and keep the grid underneath in one piece.

Last week, four students each lost one thing, on a different day from Monday to Thursday. The students were Amira, Ben, Chloe and Dev. The four things were a scarf, a water bottle, a PE bag and a pencil case. **Who lost what, and on which day?**

CLUE 1 · SAY IT, NEVER SHOW IT

1 Chloe lost something the day before Ben did.

CLUE 2 · SAY IT, NEVER SHOW IT

2 Amira lost something earlier in the week than Chloe.

CLUE 3 · SAY IT, NEVER SHOW IT

3 Dev did not lose anything on Monday.

CLUE 4 · SAY IT, NEVER SHOW IT

4 Ben did not lose the water bottle.

CLUE 5 · SAY IT, NEVER SHOW IT

5 The scarf was not lost on Monday.

CLUE 6 · SAY IT, NEVER SHOW IT

6 The water bottle was not lost on Tuesday.

CLUE 7 · SAY IT, NEVER SHOW IT

7 The PE bag went missing earlier in the week than the pencil case.

CLUE 8 · SAY IT, NEVER SHOW IT

8 The pencil case went missing the day after the water bottle.

Cut along the dashed lines. Everyone reads their own card out loud, but nobody shows it.

	WHAT THEY LOST	WHICH DAY
Amira		
Ben		
Chloe		
Dev
