

Small Wins Board

Students write down one thing they are proud of, from yesterday or today, and add it to a board that keeps growing all year. Five to ten minutes, and it gets a form used to noticing their own progress instead of waiting for somebody else to point it out.

Print these

Page	What it is	How many
Page 2	Small Win cards, twelve to a sheet, for anyone without Post-its to hand	One sheet per twelve students
Slides	One slide explaining the activity and one for the board itself (a separate download)	Nothing to print

How it works

Step	What happens	Slides
1	Display the first slide and read it with your form: one thing you are proud of, from yesterday or today, big or small.	1
2	Students write their win on a Post-it note or a printable card.	
3	They stick it to the board with a little Blu Tack. If you have no wall space, keep the second slide up on screen and build a digital board instead.	2
4	Repeat daily or weekly, whichever suits your form. The board keeps growing all year.	

Worth knowing

- Read a few wins aloud each time, if your form is happy to share. There is no ranking; every win counts equally.
- All you need is a pad of Post-its, or the printable cards, and a bit of Blu Tack.

Small things, noticed, add up to a form that is proud of itself.

Small Win Cards

Cut along the dashed lines. Twelve ready-made cards, for anyone without Post-its to hand.
