

My Screen Time, Right Now

Answer honestly and briefly; there are no wrong answers. You will compare this at the midpoint and again at the end of term.

Name:

Date:

1. Roughly how many hours a day do you spend on a screen outside school?

2. What do you mostly use it for? Name your top three.

#	What I use it for
1	
2	
3	

3. How do you usually feel afterwards?

Circle one

Drained	Flat	Fine	Good	Energised
---------	------	------	------	-----------

4. Is there a moment today you would have spent differently, looking back?

My Screen Time Reduction Plan

Pick one realistic change, not five. Small and specific beats big and vague.

Name:

Date:

1. One thing I will change this week:

2. A screen-free time or place I will try (for example, none at meals, or none in the 30 minutes before bed):

3. What I will do instead in that time:

This week, tick each day you stuck to your plan:

M	T	W	T	F	S	S

Midpoint Reflection

Get out your Initial Reflection from session 1, and compare honestly.

Name:

Date:

THEN VS NOW

	Session 1 (initial)	Now (midpoint)
My screen time estimate		
How I felt afterwards		

1. Did I stick to my reduction plan? What helped, and what got in the way?

2. What is one thing that has improved: sleep, focus, mood, or something else?

3. What will I adjust for the rest of the term?

Final Reflection

Get out all your reflections from this term, and look back over the whole picture.

Name:

Date:

MY TERM AT A GLANCE

	Initial	Midpoint	Final
My screen time estimate			
How I felt afterwards			

1. How has your screen time changed this term overall?

2. Which part of your plan worked best, and which part did not stick?

3. What is one screen habit you want to keep going next term?

Circle one: how do you feel about your progress this term?

Worse	About the same	A bit better	Much better
-------	----------------	--------------	-------------
